

General Description:

PL1000 JTR volt power amplifier is a powerful 1000 watt amplifier suitable for installing ceiling, decorative and pillar speakers that can be connected to 0 and 100 volt lines. To start and use this powerful power, just connect the output set of the mixer or pre-amplifier to the input of the power line and connect all types of speakers equipped with trans-matching to the output of this device up to 1000 watts.

Technical Features:

device type: Rack mount
Amplifier type: Ohm, Volt
Amplifier power: 1*1000 watt
Variable power in the voltage line:
100 volt line, 70 volt line
Stereo channel: 1 channel
Entrance port: RCA, TS
Output port: TS
Cooling fan:
Equipped with a variable speed cooling fan
Required voltage:
220 volts
