

General Description:

The XLR to XLR 10m Microphone Cable is an all-copper functional interface for connecting a microphone to audio mixers or an output for connecting to an active speaker. The use of 100% copper cable with the highest shield density and soldering in industrial conditions for durability and strength, and of course The ultimate conductivity of this product has given a special value.

Technical Features:

Cable length: 10 meters

Connector type: Female XLR, Male XLR

Cable type: 3050

Cable material: all copper

Cable specifications: 96+28+28

Cable color: Black

Cable application:

Connecting the speaker to the mixer,

connecting the microphone to

the mixer, connecting the light to DMX
