

PX-1200 Power Amplifier

General Description:

Soundco PX-1200 power amplifier is an audio amplifier with an effective power of 2800 watts in two stereo channels, which can easily run up to eight 350 watts speakers with an impedance of 8 ohms. The intelligent design of the amplifier circuit will be 800 watts when connecting a speaker with an impedance of 8 ohms. If we connect two speakers with an impedance of 8 ohms with a power equal to 1200 watts, and if we connect 4 speakers with the mentioned impedance, we will have a power equal to 1400 watts in each channel of this power.

Technical Features:

- device type: Rack mount
- Amplifier type: H CLASS
- Amplifier power: 2*1400 watts
- Entrance port: XLR
- Output port: SPEAKON
- Cooling fan: Equipped with a variable speed cooling fan
- Power supply: City Power
- Required voltage: 220 volts
- Product color: Black
- Body Material: aluminium
- Product weight: 23000 grams
- Product packaging dimensions: 540*580*195 mm
