

FC-206 Ceiling Speaker

General Description:

Soundco FC-206 Ceiling Speaker is a 6 inch full range speaker with 20 watts power. The use of ABS material in the production of the form is one of the strengths of this product in not changing the color in different weather conditions. In this speaker, an isolated transformer matching with different terminals is used to select the desired power to the speaker in the range of 10 and 20 watts.

Technical Features:

Speaker type: full range
Woofer size: 6 inches
Speaker Impedance: 8 ohms
Frequency range: 70 to 18000 Hz
Trans matching: Yes
Output power: 20 watts
Variable power in the voltage line:
10 watts, 20 watts
