

T922 Female

General Description:

Soundco T922F XLR jack is suitable for installation on all types of electronic boards and other wall patch panels and acoustic floors. Since the XLR connector is suitable for audio equipment and has a more effective connection than other audio plugs, including TRS, the use of fully copper bases with nickel plating in the XLR jack of the Soundco T922F mounting material is one of the strengths of the product.

Technical Features:

Connector type:
Female XLR
Body Material:
Compressed plastic, nickel plated copper plug
Product color:
Black
